**Paris, 5<sup>th</sup> November 2019**

**Thomas, Mayer & Associés (TMA) advises the Pixel 451 group in connexion with the acquisition of TS Technologies**

Thomas, Mayer & Associates advised the French group Pixel 451, specialised in intelligent buildings systems, in connexion with the acquisition of TS Technologies.

Founded in 2014, Pixel 451 brings together various companies and specific expertise which aim at developing the latest technologies in low voltage 2.0 in order to meet the expectations of its customers, architects and project owners.

As a renowned player for more than 20 years in the PACA region, TS Technologies plays a significant role on the low voltage market and operates in key sectors such as home automation, video protection, security and telephony.

This acquisition was made possible thanks to the support and responsiveness of Entrepreneur Venture, a shareholder of the Pixel 451 group for nearly 4 years.

As part of this transaction, Pixel 451 and its managers were advised by **the law firm Thomas, Mayer & Associés Paris** (Emma Bensoussan-Crémieux, *partner*, and Paco Ziani, *associate* for the Corporate part and Charlotte Callet, *partner* for the employment law part), **the company Axance Finance & Développement** (Antoine Rimpot) and **the accounting firm PWA** (Pascal Wizel) for the financial part.

TS Technologies was assisted by Mr. Francis Reitter.

Entrepreneur Venture was assisted by **the law firm SLB** (Stéphanie Coste-Le Bris).
