**Thomas, Mayer & Associés**

Thomas, Mayer & Associés (TMA) is a French law firm founded in 1995 and registered with the Law Society of Hong Kong. It was set up by Eric-Jean Thomas and Eric Mayer, two French international lawyers who have been involved in business transactions in South East Asia for many years before joining their expertise to launch the only French law firm originated in Hong Kong.

Because Hong Kong is the gateway to China by excellence and investors also use Hong Kong as a platform to structure and to manage their investments all over the Asia-Pacific region, TMA's framework covers a very wide geographical area.

TMA advises a client basis of more than 300 companies which rely on its international experience built in the region, and benefit from legal advice tailor made to their specific needs, irrespective of whether they are large companies or entrepreneurs wishing to invest in Asian markets in general, or more particularly in the Chinese market, which are synonymous with fast expanding business and growth.

TMA comprehensive knowledge of local regulations is dedicated to advising clients who are accompanied throughout the investment process in order to insure a good understanding and control of the complex

issues which are keys to the complete success of their investment project.

TMA legal practice areas include international business law, mergers and acquisitions, joint ventures, company and commercial law, international tax law, international arbitration, international private law, and immigration law.
